Career Objectives

I am a highly motivated full-stack junior developer looking to launch a career as a web developer with an employer offering opportunities for professional development. My goal is to continuously grow as a developer while staying current with the latest trends and technologies. I would love to work for a team that is truly passionate about what they create and that is striving consistently to move forward.

Projects and Work Experience

Full Stack Developer / Designer
Mar 2020 - Sep 2022
Olatoo - www.olatoo.com

#React #Firestore #Firebase #NextJS #MaterialUI #Vercel #Axios #Stripe #JavaScript #Typescript #AdobeXD #Photoshop

- I handled all development and design of the app.
- Olatoo is a fully responsive web app built with NextJS and MaterialUI that allows users to connect with Spanish tutors over zoom.
- User authentication is handled using firebase with data saved to the cloud firestore database.
- Monthly subscription payments are handled using the Stripe API.
- Fully responsive booking system and user dashboard with timezone integration.

Spaced - spacedapp.herokuapp.com

#React #MySQL #ChakraUI #Axios #JavaScript #Typescript #Framer-motion #MySQL #JWT #Redux #NodeJS #Express #Heroku #JawsDB

- Spaced is a fully responsive flashcard memory app that utilises the Supermemo 2 (SM-2) algorithm. It is built with ReactJS, ChakraUI, NodeJS, Express and MySQL
- User authentication is handled using bcrypt, JWT, and MySQL.
- User data is saved to the MySQL database.
- Fully responsive web app.
- Redux is used for state management.
- Framer motion is used for dynamic animations.
- Deployed using Heroku and JawsDB

Iphone Calculator- https://voluble-pithivier-dc03c2.netlify.app/

#HTML #CSS #JavaScript #Photoshop #FontAwesome

- Replica of the Iphone calculator built with HTML, Javascript and CSS.
- Iphone statup animation built with CSS animations.
- Calculator operations handled using JavaScript.
